

Air Canada can safely transport animals of all sizes worldwide! Horses require the greatest care when being transported. Specially built stalls provide ramps at each end, allowing the horses to be led in and out safely and efficiently. Air Canada ensures horses are transported comfortably in individual stalls aboard our Boeing 747-400 and 747-200 Combi aircraft.

*For more details on shipping horses, contact
Air Canada Cargo representative Nancy Guest at: (905) 676-4276
